HIGH IMPACT LEARNING

DACE believes that transformative ideas emanate from a fundamentals-based understanding and decision-making. **Multi-Dimension** approach to clinical problem solving from our accomplished faculty sets our program apart. We foster a culture built on **Unbiased** principles with an open and honest exchange, where cutting-edge ideas along with tried, tested and refined principles are presented through discussion and discourse to broaden perspectives and expand **Analytical Thinking**.

Live Surgeries

Hybrid Learning

Analytical Thinking

Global Exposure

Univ. Accreditation

DACE EXPERT PANEL

Carefully chosen International & National faculty that are **passionate** about teaching and known for the authenticity of their ideas and solutions. They stand out for the intelligibility and develop **critical thinking** amongst participants.

LEARN TODAY...

...LEAD TOMORROW

ACHIEVE CLINICAL EXCELLENCE WITH GLOBAL EXPERTISE!

Clinical Mastership is a certificate program led by world-class faculty, customized for Indian Clinicians. A modular clinical and didactic based program with faculty overseeing the clinical activity was designed to give the participants a high level of confidence to master implant surgeries.

This comprehensive program includes mandatory online & classroom didactic sessions, hands-on exercises and live surgical clinical component. Online sessions and assessments are a part of the Dental XP – NYU Implant Fellowship Program. Offline modules include surgical component with International faculty overseeing live patient surgeries performed by program participants. India modules are conducted at the DACE Learning Center in Bangalore and the Final Module with certification will be held in the US as part of the Dental XP Global Symposium.

Feb 2020

Implant Revisions
Peri-Implantitis Management
Advanced Augmentation

Educate - Collaborate - Excel

Dental Academy for Clinical Excellence (DACE) was founded in 2013 to provide career and professional services to dental students and working professionals. Headquartered in the US, DACE is focused on enhancing the quality of dental education by partnering with dental institutions, universities, academies and content partners.

DACE India was formed as a branch of DACE US with a primary goal of enhancing learning experiences and education quotient of the dental fraternity in India. DACE will promote convergence of academia, industry & dental professionals for increased collaboration amongst various disciplines and provide enhanced learning opportunities to students and professionals to stay current with advancements in the industry.

A passionate team consisting of educators, technologists, dental professionals & industry leaders with decades of experience in their respective fields founded DACE to enhance learning opportunities to students and professionals in the Dental industry.
